PRODUCTS DESIGNED FROM NATURE

(BIOPHYTOSEBUM®

NATURAL ACTIVE EMOLLIENT WITH DRY FEEL

BIOPHYTOSEBUM® is a unique emollient for personal care and beauty products. **100% vegetable origin**, it is composed of unsaponifiables and wax-esters obtained from olive oil. Very easy to use in the oily phase of the formulation, it offers **non-greasy feel**, easy spreading and penetrating, **moisturizing** and **nourishing** properties for skin.

INCI name : Decyl Olive Oil Esters (and) Squalene

● THE BENEFITS OF OLIVE OIL UNSAPONIFIABLES IN COSMETICS

Olive oil has always been used for skin care. By a patented process, Sophim obtains low molecular weight liquid **wax-esters** that give a dry and light feel. In addition the **unsaponifiable** fraction is concentrated and purified in order to get more active components (phytosterols, tocopherols, carotenes, triterpenic alcohols, etc) that will restore the lipidic layer and the intercellular cement of the *stratum corneum*.

● PROPERTIES OF BIOPHYTOSEBUM®

Emollient that restores the suppleness of the epidermis.
Long-lasting moisturizer derived from Olive.
Active oil with high content in unsaponifiables and essential fatty acids.
Easy spreadability and quick penetration into the skin.
Smooth carrier for active ingredients.
Gives dry and velvety after-feel with "cushion effect".
Clear, transparent and deodorized.
Vegetable alternative to volatile silicones.

● AVERAGE COMPOSITION

90% liquid wax-esters from olive
7% olive squalene
3% sterols and olive hydrocarbons

● APPLICATIONS

Skin Care creams, Body oils, Massage oils,
Make up with care effects, Hair and scalp lotions,
Sun and after-sun products, Depilatory, Shaving
and deodorant applications.
